

# Cage-Free Shell Eggs

Consumer trends are continuing to demand eggs from cage-free environments. Rembrandt Foods® is proud to offer cage-free eggs that follow the certification guidelines of American Humane Certified® or Humane Farm Animal Care®. We continue to grow our specialty egg product lines to match consumers' demand. Our specialty egg products allow you to offer your customers the satisfaction of buying eggs from hens that are raised in barns that are independently verified by third parties.

## Cage-Free Housing Specifications

- Layers in a cage-free housing system are given a minimum of 144 sq. inches for their whole lives.
- Birds have the ability to carry out behaviors such as nesting, perching and dust bathing.
- Cage-free birds have enough room to be able to walk, spread their wings and lay their eggs in nests.

## Cage-Free Certifications

- American Humane Certified® is the United States' first farm animal welfare program dedicated to the humane treatment of farm animals.
- Humane Farm Animal Care® is funded by contributions from individual donors, foundations, and some humane organizations. Numerous animal welfare organizations endorse the Certified Humane Raised and Handled® program, including the Humane Society of the United States.
